

Welcome to DownlineBuilder2u.com! We're here to help you make more money as an Internet marketer.

What we're going to do is tell you about a downline builder system that will make your affiliate marketing activities easier and more successful.

Don't get us wrong – you're going to have to do the work. You have to find the referrals.

What we'll do is set you up with a system that will make earning income from those hard-earned referrals easier.

How?

With our downline builder that keeps a constant watch on every single click-through associated with your referral ID. Your click-throughs are accurately recorded in our database so that you receive every sen of commission that you earn.

Unlike other systems, our downline builder traces referrals throughout all levels, forever. That means that you'll receive commission on your own direct downline AND your downline's downline!

Here's what you do:

1. Sign up for DownlineBuilder2u's FREE trial membership
2. Add 2 of your own programs and begin to build your profit-making downlines!
3. Upgrade your membership and start earning your commissions!

As a free trial member, you'll have access to:

1. Your own personalized control panel
2. The ability to offer your programs up to 5 levels down
3. The opportunity to add two of your own programs
4. A host of other special features!

As an upgraded PRO member, you'll keep access to all the benefits of a free member, PLUS, you'll be able to:

1. Earn commissions on all 5 levels for referring other paid members
2. Add 100 of your own programs and continue to build your profit-making downlines!

DownlineBuilder2u's commission structure:

Level 1: RM 60.00 per year
Level 2: RM 30.00 per year
Level 3: RM 15.00 per year
Level 4: RM 10.00 per year
Level 5: RM 5.00 per year

*Minimum commission withdrawal is RM 50.00.

The DownlineBuilder2u advantages:

1. As a paid member, you can advertise *your own* affiliate links up to 100 links at any time.
2. You earn commission for referring other Internet marketers to DownlineBuilder2u.com
