CAREER EXPERIENCE

CitiMortgage, Retail Lending Operations Division ■ St. Louis, Missouri ■ 9/2003-Present ***Pipeline Management & Capacity Planning Analyst***

Developed and maintained a comprehensive staffing model to help preemptively identify capacity gaps and to justify increases/decreases in staffing. The model uses both current management experience and regression analysis to identify the relationship between volume, required staff and overtime. The responsibilities of this position also include the development and maintenance of over 40 daily reports and to meet any ad-hoc reporting needs. In order to accomplish the increase in reporting volume, the position required the development of extensive automation through Visual Basic for Applications, and the careful management of one direct report. Another crucial aspect of the position lies in the interaction with all levels of management in order to develop the type of relationships that enable a clear understanding of each person's business needs.

Key Achievements:

- Created a retail lending staffing model, recognized to save more than 15% in staffing costs.
- Created a report request tracking system to deliver reports to customers 2.5 times faster than before.

CitiMortgage, Human Resources Division ■ St. Louis, Missouri ■ 7/2003-9/2003

Database Specialist

Developed an Access database to help track potential talent within the Company. The database consisted of a multi-user interface that allowed over 150 managers to input and track data obtained from quarterly employee reviews. In addition, HR used the reporting feature of this tool to develop a strategic plan for talent management and to implement gap analysis wherever needed. The responsibilities of this position also included training all managers and HR representatives on how to use this database.

Key Achievements:

- Awarded Champion of the Year in recognition of exemplary service and performance.
- Created and implemented a database that reduced strategic planning costs by 40%.

SATISFIED CLIENT

Honeywell, Customer Operations Division ■ Phoenix, Arizona ■ 7/1999-5/2003

Aircraft on Ground Coordinator

Provided logistical support to all Honeywell Aerospace customers by expediting shipments and reducing lead-times of scarce units through coordination with planning, repair & overhaul, credit & treasury and other related departments. Also maintained and developed efficient and accurate department metrics and statistics using MS Access, Excel and Power Point. In addition, reduced inventory shortage situations by 24 percent by applying Six Sigma quality control tools to the Initial Provisioning process. Received a Greenbelt Certification as a result.

Key Achievements:

- Coordinated development and production of Division web site
- Lead participation in the Initial Provisioning Package Greenbelt Project
